

HandiFoam
HVLP
POWERED BY NITROSYS

THE TRUSTED SYSTEM

NITROSYS PLUS DISPENSING UNIT +
HANDIFOAM HVLP DRUM FOAM

**WHY CHOOSE HANDIFOAM® HVLP
POWERED BY NITROSYS PLUS?**

ICP's HVLP foam technology developed with a leading systems house and Spray Foam Systems, the leader in HVLP dispensing equipment, performed extensive testing and technical development to provide a perfect foam and dispensing solution for high volume, low pressure applications.

SIMPLER PPE REQUIREMENTS

Aligns with low pressure PPE guidelines

1 HOUR RE-ENTRY TIME FOR OTHER TRADES

Simplifies scheduling for general contractors

4 HOUR RE-OCCUPANCY FOR HOME OWNERS

Weatherization, additions, attics, and remodeling insulation jobs can now be completed in 1 day (no overnight hotel stays for home owners and pets)

REALISTIC VENTILATION REQUIREMENTS

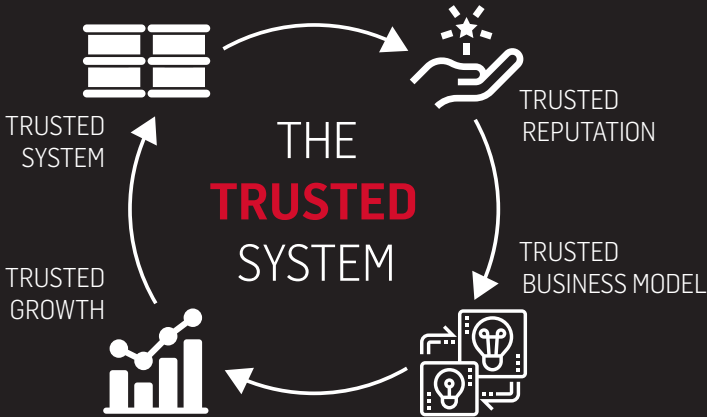

20 ACH minimum for 4 hours required to achieve re-occupancy

UP TO 12 LB./MIN DISPENSING RATE

Suitable for new construction and commercial jobs

DISPOSABLE AND RE-BUILDABLE DISPENSING GUN OPTIONS

Minimal downtime and no expensive parts for re-build

**POLYURETHANE FOAM
SEALANTS, ADHESIVES
& INSULATION**

HandiFoam® offers an innovative range of high-quality, low-pressure polyurethane sealant and insulation technologies, low-pressure one- and two-component polyurethane foam adhesives, and exclusive patented tools and accessories.

**THERMAL BARRIERS,
IGNITION BARRIERS
& NON-FLAMMABLE
COATINGS**

FireShell coatings are water-based, single-component, non-flammable intumescent coatings that can expand in the event of a fire to provide a protective layer of char that starves the fire of oxygen and helps prevent flame contact with the FireShell protected surfaces.
