

# REVOLUTIONARY SYSTEM SOLUTION

**NITROSYS PLUS DISPENSING UNIT + HANDIFOAM HVLP MD 2.0 DRUM FOAM**

- **SIMPLER PPE REQUIREMENTS** – Aligns with low pressure PPE guidelines
- **MINIMAL RE-ENTRY TIME FOR OTHER TRADES** – Simplifies scheduling for general contractors
- **2-4 HOUR RE-OCCUPANCY FOR HOME OWNERS** – Weatherization, additions, attics, and remodeling insulation jobs can now be completed in 1 day (no overnight hotel stays for home owners and pets)
- **REALISTIC VENTILATION REQUIREMENTS** – 20 ACH minimum for 4 hours required to achieve re-occupancy
- **UP TO 13 LB./MIN DISPENSING RATE** - Suitable for new construction and commercial jobs
- **DISPOSABLE AND RE-BUILDABLE DISPENSING GUN OPTIONS** – Minimal downtime and no expensive parts for re-build

## WHY CHOOSE HANDIFOAM HVLP WITH NITROSYS PLUS?

**This innovative system is packed with new features:**

- Significantly lower startup costs for new contractors
- Affordable and reliable finishing and touch-up for small to medium sized jobs
- Customized rigs available at a significant savings over high pressure rigs
- Extensive testing and development provides the perfect foam and dispensing solution for High Volume Low Pressure applications
- Industry leading MasterWorks end-user training and technical support
- ICP's HVLP foam technology developed with a leading systems house and SFS, the leader in HVLP dispensing equipment
